

ΔΙΕΘΝΗΣ ΕΚΘΕΣΗ • INTERNATIONAL EXHIBITION  
**CLIMATHERM**  
*Energy 2024*

### 34 YEARS OF ENERGY EXPERTISE

The international exhibition **Climatherm Energy 2024** has arrived. The participation of old and new exhibitors, domestic and foreign, exceeded all expectations, making it once again, the largest energy institution in Greece.

The participating companies are preparing, as always feverishly, to showcase innovative products in the sectors of: **Renewable Energy Sources - Geothermal - Natural Gas - Air Conditioning - Heating - Ventilation - Industrial Cooling - Solar Energy - Water Supply (Bathroom - Swimming Pool) - Desalination - Energy Upgrade of Buildings - Electricity - Hydrogen - Software** and others, taking place, as always, under the auspices of the **Ministry of Environment and Energy** and having the continuous support and participation of all the important entities in the sector.

At the same time, events are continuously planned, with the aim of presenting, providing timely information and upgrading knowledge, for the visiting public, who will take place during the exhibition.

**Climatherm Energy 2024**, will be held at the international standard exhibition center "**Athens Metropolitan Expo**", from February **23** to **25**, 2024.

We are waiting for you!
