

## Press Release

### the Architect Show: a spectacular overhaul for Greece's leading architecture and design event

[the Architect Show](#), a constant point of reference for the Greek architecture and design community, is opening a new chapter in its successful history, fully renewed and overhauled.

Since 2018, the Architect Show has established itself among architecture and design professionals in Greece as the most stimulating event for innovation, creativity, and collaboration. The two-day experiential event is an annual meeting point for creatives and the innovation in new materials and technologies, inviting professionals and the public to discover, collaborate, inspire, and be inspired.

This year's the Architect Show, which will take place on **Saturday 7th and Sunday 8th December 2024** at Metropolitan Expo in Athens-Greece, is renewed and overhauled thanks to new international collaborations. This evolution and the next steps towards the future mark the total reformation of its image, spearheaded by the new logo designed by **Ciarmoli Queda Studio (CQS)**.

Reinforcing its role as a dynamic platform for collaboration and dialogue, the Architect Show attaches two new strategic partnerships with architectural institution **DOMa** and digital platforms **DAAily (ArchDaily and Designboom)**.

The sixth edition of the Architect Show will take place this December in Athens-Greece, and the revamped event will feature an extensive exhibition of building materials, technology, architectural products and services, design and furniture. The main exhibition will be complemented by a dynamic parallel programme, including an ephemeral exhibition curated by Ciarmoli Queda Studio and the tAS Talks discussion programme organised by DOMa, ArchDaily and Designboom.
